Verhalen Nursery Co.

Scottsville, Texas

Standard Plants and Some Unusual Kinds

WHOLESALE ONLY

Read Before Ordering

THIS FEATURE OF ZONE DELIVERIES

ZONE 1. Delivered prices are for truckloads delivered by us within the distances of Wichita Falls, Brownwood, Austin, Galveston, Port Arthur, Lake Charles, Baton Rouge, Monroe, La., and Eldorado, Ark.

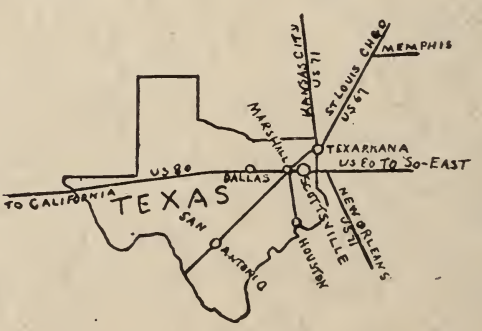
ZONE 2. Delivered prices are for truckloads delivered by us outside of Zone 1 as far as Abilene, San Angelo, San Antonio, Corpus Christi, New Orleans, La., Vicksburg, Miss., Little Rock and Fort Smith, Ark., Tulsa and Oklahoma City, Okla.

These distances are extended and prices lowered considerably in this issue.

Where several truckload orders to a city within either zone can be combined into a minimum carload we reserve the privilege to ship the car freight allowed, the customer to unload from car. This will assure, during rush periods, quicker delivery and fresher looking plants.

CARLOADS may be shipped within Texas at a saving over truck delivery on a special low balled and burlapped rate of 20% of the first class rate on a 30,000 pound minimum; and on 25% of the first class rate on an 18,000 pound minimum. Out-of-State, 32½% of first class rate on 16,000 pound minimum. Cars may be stopped enroute three times for partial unloading at $6.93 for each stop.

Scottsville is in Harrison County, Northeast Texas, where nursery stock, along with natural plant life, becomes dormant in October, goes through normal winter temperatures of 20 degrees above zero and does not break into spring growth until late February or early March, thus producing hard, fully dormant nursery stock which ships safely anywhere.



We Sell at Wholesale Only—Not One Plant at Retail

MEMBER OF

American, Texas, Oklahoma, Western, Illinois, Indiana, Michigan and Ohio Nurserymens' and Texas State Florist Associations.

WHOLESALE PRICE LIST
Winter 1939-1940

Verhalen Nursery Co.

Scottsville, Texas

Telephone Marshall, Texas 29-F2
Telegrams: Western Union, Scottsville, Texas

Our evergreens are grown on moderately rich, firm, but porous soil which permits the ball of earth to readily unite with the soil into which it may be planted. All of the balls are flat bottomed and uniform in dimensions according to the size of the plant. They are suitable for planting where irrigation is required. These are valuable factors.

The numbers before prices indicate the approximate weight of balls. This scale enables you to decide on quantities and to estimate weight and freight rate cost per plant when making up an order.

No. 1— 8 lbs.		No. 8— 160 lbs.	
No. 2— 14 lbs.		No. 9— 200 lbs.	
No. 3— 20 lbs.		No. 10— 300 lbs.	
No. 4— 30 lbs.		No. 11— 600 lbs.	
No. 5— 40 lbs.		No. 12— 800 lbs.	
No. 6— 60 lbs.		No. 13—1200 lbs.	
No. 7—100 lbs.			

Apply Zone 1 prices for purchases at nursery of 50 plants or less.

Prices are lower and zone distances are extended in this catalog.

Conifers

Balled and Burlapped (B&B) unless otherwise noted.

5 - 6 ft.	8			
6 - 7 ft.	8			
7 - 8 ft.	9			

JUNIPERUS communis columnaris kiyonoi—Kiyono Juniper. New, should be used for medium height columnar effects. Does not sunburn. (see photo). 12 ft.

18-24 in.	4			
2 - 3 ft.	5			
3 - 4 ft.	6			
4 - 5 ft.	7			

JUNIPERUS communis columnaris kiyonoi—(Cont.)

	B&B F.O.B. Zone 1 Zone 2
5 - 6 ft.	8
6 - 7 ft.	9
7 - 8 ft.	9

JUNIPERUS communis hibernica fastigiata—Irish Juniper. An exceedingly narrow form of upright pillar-like juniper which is weather and sun-resistant and does well in our southwest. 8 ft.

24-30 in.	4
30-36 in.	5
3 - 4 ft.	6

JUNIPERUS scopulorum—Blue Moon Juniper. Silvery gray; new. 20 ft.

JUNIPERUS scopulorum fraseri—Fraser Juniper. Silvery. 20 ft.

JUNIPERUS scopulorum—Moonlight Juniper. Silvery, open bodied; foliage mostly in flat panels; suitable for prominent positions; very attractive. 20 ft.

JUNIPERUS scopulorum—North Star Juniper. Compact, green, upright; does not turn brown in winter like Red Cedar does occasionally. 20 ft.

JUNIPERUS scopulorum—Victory Juniper. A weeping, open Colorado Silver Cedar. 15 ft.

JUNIPERUS scopulorum pendula—Weeping Juniper. A close-growing, compact silvery type. 15 ft.

JUNIPERUS scopulorum—Colorado Silver Cedar. Sheared, mostly silvery trees; heat and cold resistant. Native to Rocky Mountains. 30 ft.

3 - 4 ft.	6
4 - 5 ft.	7
5 - 6 ft.	8
6 - 7 ft.	9
7 - 8 ft.	10

JUNIPERUS scopulorum—Silver Glow Juniper. Glistening silvery blue, compact. Most popular of the scopulorums. 30 ft.

3 - 4 ft.	6
4 - 5 ft.	7
5 - 6 ft.	8
6 - 7 ft.	9

JUNIPERUS scopulorum—Nevin's Blue Juniper. A beautiful blue, compact, conical Juniper. 25 ft.

18-24 in.	4
2 - 3 ft.	5

JUNIPERUS virginiana—Red Cedar. Sheared; an exceedingly comely form admired by all. 40 ft.

2 - 3 ft.	5
3 - 4 ft.	6
4 - 5 ft.	7
5 - 6 ft.	7
6 - 7 ft.	8
7 - 8 ft.	9
8 -10 ft.	10
*10-12 ft.	11
*12-15 ft.	12
*15-18 ft.	13
*18 ft. up	13

* Too large for our truck delivery.

CANNART JUNIPER

JUNIPERUS virginiana—Red Cedar, standards with globe heads, English style. For formal plantings.

	B&B	F.O.B.	Zone 1	Zone 2
3 - 4 ft.	6			
4 - 5 ft.	7			
5 - 6 ft.	8			
6 - 7 ft.	8			

JUNIPERUS virginiana burki—Burk Red Cedar. A silvery, evenly formed attractive Red Cedar. Preferred over juniperus virginiana glauca. 15 ft.

JUNIPERUS virginiana cannarti—Cannart Red Cedar. Foliage heavily tufted, deep green. 18 ft. (See photo)

JUNIPERUS virginiana keteleeri—Keteleer Red Cedar. Pyramidal, dark green. 18 ft.

3 - 4 ft.	6
4 - 5 ft.	7
5 - 6 ft.	7
6 - 7 ft.	8
7 - 8 ft.	9
8 -10 ft.	10

JUNIPERUS virginiana glauca—Silver Red Cedar. The well known popular variety. 20 ft.

JUNIPERUS virginiana pyramidaformia hilli—Dundee Juniper. A compact cedar which takes a deep plum color after frost. Popular. 20 ft.

JUNIPERUS virginiana schotti—Schott Red Cedar. An almost golden form of Cannart Red Cedar. 20 ft.

JUNIPERUS virginiana smithi—Smith Red Cedar. An outstanding green form well worth giving a prominent position in a planting. 20 ft.

15-18 in.	3			
18-24 in.	4			
2 - 3 ft.	5			
3 - 4 ft.	6			
4 - 5 ft.	7			

JUNIPERUS excelsa stricta—Spiny Greek Juniper. Sheared excellent specimens. Small, conical glaucous tree. 10. ft.

9 -12 in.	2
12-18 in.	3
18-24 in.	4
2 - 3 ft.	5
3 - 4 ft.	6
4 - 5 ft.	7
5 - 6 ft.	8
6 - 7 ft.	9

JUNIPERUS monosperma—Cherry Stone Juniper. A dwarfish selected silvery blue compact; upright with stiff, straight stems. New. 6 ft.

18-24 in.	4
2 - 3 ft.	5

JUNIPERUS virginalis (formerly japonica erecta)—Upright Japanese Juniper. Many branches, deep vase like; foliage soft, bright green; a new style and color for landscaping. 5 ft.

12-18 in.	3
18-24 in.	4
2 - 3 ft.	5
3 - 4 ft.	6

JUNIPERUS virginiana globosa—Dwarf Globe Red Cedar. Very compact form, pea green; for base planting; ultimate height 4 ft.

15-18 in.	4
18-24 in.	5
24-30 in.	6
30-36 in.	7

JUNIPERUS squamata meyeri—Meyer or Fishtail Juniper. A silvery blue thick, heavily foliaged, odd, unevenly growing juniper, especially good for rock gardens or other important positions. Partial shade. Dwarf. 4 ft.

12-15 in.	2
15-18 in.	3
18-24 in.	4
24-30 in.	6
30-36 in.	7

PFITZER JUNIPER

Horizontal Junipers

JUNIPERUS chinensis pfitzeriana—Pfitzer Juniper. 8 ft. spread.

GROOTENDORST SUPREME—

New, brilliant cherry red, not patented. each

Patented Roses

	Wholesale		Retail	
	1 to 20	Over 20	Each	Dozen
AMERICAN PRIDE— White, slightly pink in bud				
ANGELS MATEU— Orange - rose				
BLACK KNIGHT— Flower medium size, 25 to 35 petals. Color garnet-maroon, appearing almost black when viewed from a distance				
DREAM PARADE— A parade of pastel shades from spring until fall. Color changes from month to month				
FEU PERNET-DUCHER— Creamy buds, slowly opening to spiral flowers of rich yellow, growing lighter toward the edges, 80 to 100 petals				
GLORIANA— A clear yellow, slightly streaked carmine; does not burn in the hottest weather; 35 petals. Upright growing				
IRELAND HAMPTON— Best described as a glorified Mme. Edouard Herriott, but is a stronger grower. Color, orange pink				
LUIS BRINAS— Fine pointed buds of orange-copper open slowly, the petals curling back, making a starry flower with a high center, from 40 to 45 petals				
MME. COCHET-COCHET— Long pointed buds of coppery pink, flushed orange, open to 4½ inch flowers of splendid form with 20 to 40 petals; the plants are vigorous with good foliage				
NELLIE E. HILLOCK— Brilliant deep pink, large to very large flower, two-tone lighter pink inside than outside, strong stems, 40 to 60 petals				

AFTER THE WORK IS OVER

	Wholesale		Retail	
	1 to 20	Over 20	Each	Dozen
STERLING— Strong upright growing, foliage disease resistant with perfect shaped fragrant flowers of brilliant pink. From bud stage to dropping of petals there is absolutely no loss of color or brilliancy no matter how hot the sun. The form of the flower is all that could be asked. Its lasting qualities are better than most. Long stems make it unusually good for cutting. A beautiful Rose of sterling qualities and a great future				
TEXAS CENTENNIAL— Bud is long-pointed, opening into a large flower, carried on a long stem. Color is nopal-red
